Envision IT Services Overview

Focused on complex SharePoint solutions, Envision IT is the “go-to” partner for Microsoft SharePoint, building integrated public web sites, Intranets, collaboration portals, and Extranets.

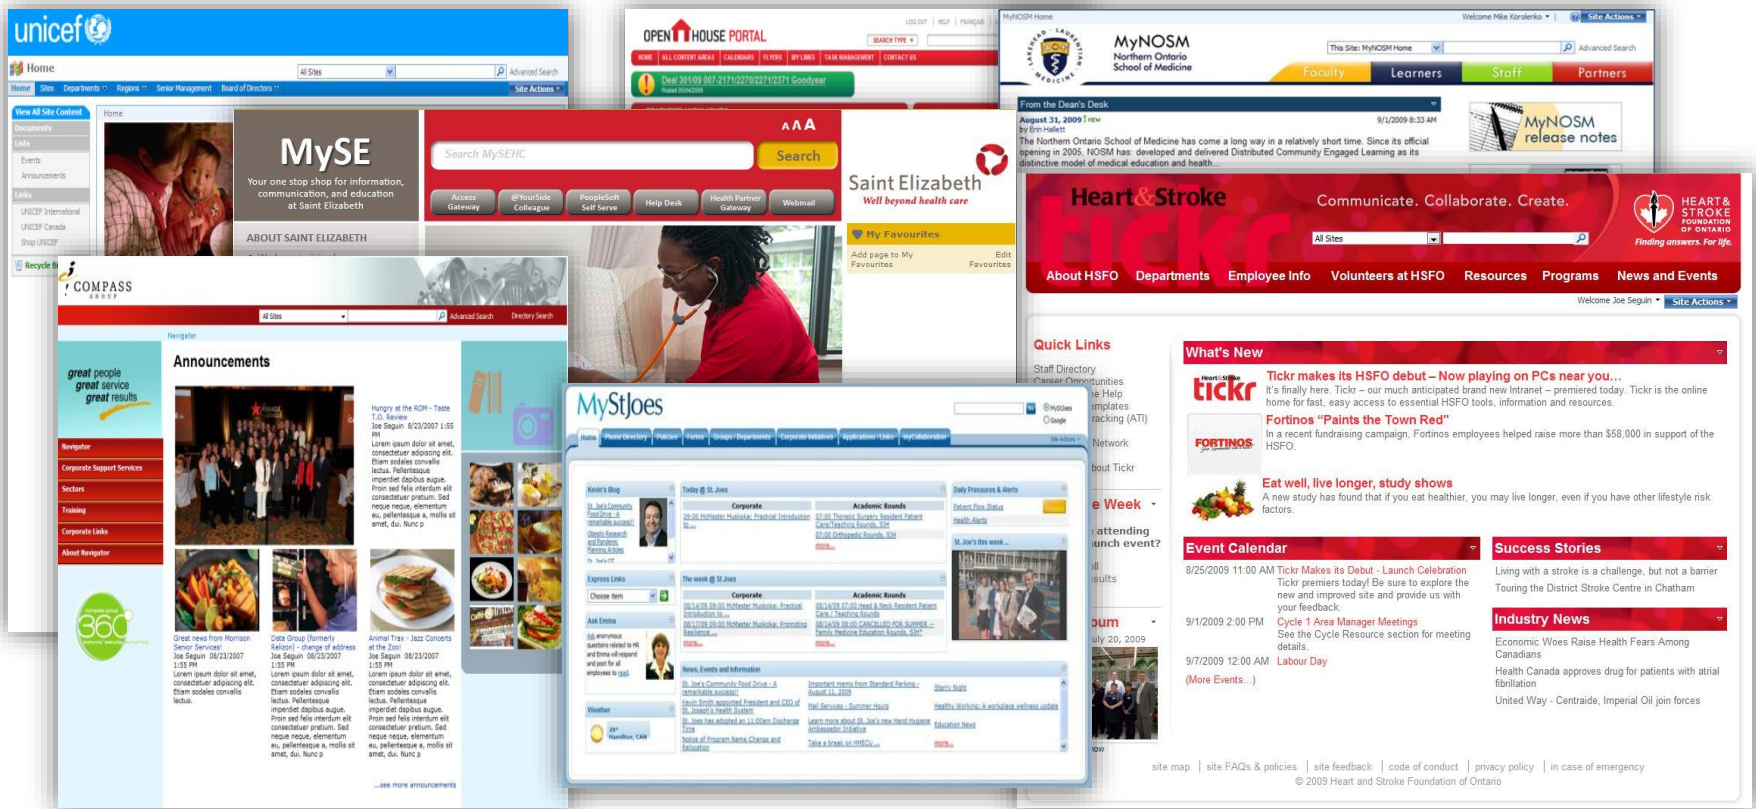

Public Web Sites

We create interactive, content-rich customer-facing web sites that are able to grow and transform with changing needs

Intranets

Our Intranet Sites connect people to information, expertise and key business applications, and SharePoint provides a broad set of Enterprise Content Management features

Collaboration Portals

Our Collaboration Portals provide a secure space for teams to share knowledge and resources

CAMH Knowledge Exchange

CAMH Knowledge Exchange is designed to help professionals find, understand, interpret and evaluate information and resources that support good practice.

New and Featured

- Submission to the Select Committee on Mental Health and Addictions.** Presented by Paul Garfinkel, June 3, 2009. The Select Committee on Mental Health and Addictions - with representatives from all three parties - was formed by the Ontario legislature to develop a mental health and addiction strategy for the province. The committee is holding hearings with consumers/survivors, providers, experts, government and other interested parties to determine the mental health and addiction needs that currently exist. The committee is expected to issue a report in 2010. CAMH's submission to the committee recommends key components of an integrated system of care and ways to address the social determinants of health for individuals with mental illness and addictions.
- Moving in the Right Direction (PDF) March 2009**
According to the results from the Systems Enhancement Evaluation Initiative (SEEI), an investment of \$167 million in provincial funding can make a difference to Ontario's community mental health system. The report shows that - although Ontarians now have access to more appropriate community mental health services - the system has limited resources to serve all those in need, particularly clients who need intensive or daily community level support.
- Addiction & Mental Health Specialists: Resources for your clients and their families**
This section provides a wealth of online resources for clients and families that can be used in several ways. Whichever methods you choose, you will find that these resources are valuable tools for extending the usefulness of sessions with clients and families.

Methadone Maintenance Treatment: Community Planning Guide
The MMT community planning guide is a manual offering guidance to communities across Ontario on how to raise awareness of the benefits of methadone maintenance treatment and how to develop and integrate effective treatment services in their community.

Envision IT has a wealth of experience building Corporate Extranets that allow you to securely connect with customers and partners

Products

Microsoft SharePoint

Poll 1

Which Version of SharePoint are you currently using?

- SharePoint Server 2010
- Microsoft Office SharePoint Server 2007
- Windows SharePoint Services 3
- SharePoint Foundation 2010
- I'm not sure

Images in SharePoint 2013

- Drag and drop images or videos into Asset libraries
- In 2010 Asset libraries automatically created _t thumbnail images and _w web-friendly images
- In 2013 we have much greater control through Image Renditions
 - You can specify any number of resized images
 - They are created on the fly and cached in the blob cache
 - Content authors can control the cropping and scaling

What do you need for Renditions?

- A publishing site collection
- A configured BLOB cache
- An asset library
- You define Image renditions at the Site level
- You can then Edit Renditions on any image in an Asset Library in that site

Products to Enhance your SharePoint Experience

Envision IT
ImageRotator
for SharePoint

Products to Enrich your SharePoint Experience

- Allows images to be displayed in rotating sequence on a web site
- Each image acts as a launching pad to a target URL or video that may promote a campaign, product, special event, news item, etc.

- Asset library of rotation images
- Rotation order and target URLs are defined in metadata
- Publishing start and end can define when they appear on the site
- Supports iPad and mobile devices

- Easy for content authors to maintain
- Valuable real estate on the home page is increased dramatically
- Number and sequence of images in the rotation is easily configured
- Scheduled start and end dates allow images to be queued for appearance
- Content approval and publishing are supported
- Visitors are able to interact with the images
 - Pause the rotation
 - Click a numbered button/icon to advance to a specific item

Products to Enrich your SharePoint Experience

Overview

- Redirect old or incorrect URLs to specific pages on your new SharePoint site
- Supports shortened URLs for marketing purposes

Some examples

- Your new site has incoming links from external sites pointing to now invalid URLs from the old site
 - i.e. if Facebook had a link to an article on your old site
- You'd like to provide a short URL to pages deep inside your site
- Bookmarked pages have changed
- Site visitors mistype your URL in their browser
- An author has left a broken link on a page

The webpage cannot be found

HTTP 404

Most likely causes:

- There might be a typing error in the address.
- If you clicked on a link, it may be out of date.

What you can try:

- Retype the address.
- [Go back to the previous page.](#)
- [Go to](#) and look for the information you want.
- [More information](#)

Features

- The **Envision IT Custom 404 for SharePoint** will eliminate 404 errors and provide a richer user experience
- It is configurable in the following instances:
 - **Exact Match** - redirects visitors from an old URL to the matching new one
 - **Starts With** - redirects visitors from a particular part of your site to a specific page
 - **Contains Match** - selects common keywords in a bad URL and redirects users to the related page
 - **Default** – a catch-all for any other bad URLs

Situation 1

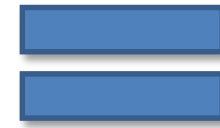

Goes to Old Site

Old URL linked on an external site:
[www.envisionit.com/content.asp?
L=E&DocID=9](http://www.envisionit.com/content.asp?L=E&DocID=9)

Situation 2

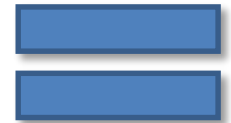

Goes to New Site

404
Error

Old URL linked on an external site:
[www.envisionit.com/content.asp?
L=E&DocID=9](http://www.envisionit.com/content.asp?L=E&DocID=9)

Solution

Old URL linked on an external site:
[www.envisionit.com/content.asp?
L=E&DocID=9](http://www.envisionit.com/content.asp?L=E&DocID=9)

Redirects to New Page on the New Site:
